Traditional roots and innovative growth: Brothers and managing partners Helmut Link (left) and Joachim Link (top) are leading Interstuhl into the future.

INDIVIDUAL SELECTION

THE COMPLETE RANGE
FOR INDIVIDUAL REQUIREMENTS

One of the aspects that makes Interstuhl so special is the flexibility and variety of its portfolio. Therefore, we of course continue to offer an extensive array of models, designs, materials and colours. With the **Individual Selection**, our partners and customers have a wide range to choose from within each collection – just as they always have done.

The Individual Selection is available to download in PDF format from the Interstuhl Partnernet:
interstuhl.com/partnetnet

INTERSTUHL PLANNING DATA

EVEN MORE CONVENIENCE THANKS TO OAP!
CONFIGURE DIRECTLY ON THE PRODUCT!

All commercial and graphical data from the Individual Selection is available in pCon.update. Thanks to OAP (OFML Aided Planning), using our planning aids is now even more convenient and intuitive. With immediate effect, it is now possible to make modifications directly on the 2D/3D model, even on complex products such as HUB configurations.

For further information, visit
interstuhl.com/planning

FROM SWABIAN BLACKSMITHS TO INTERNATIONAL SUPPLIERS OF QUALITY PRODUCTS.

Interstuhl's story of success began in 1961 when two blacksmiths in the Swabian Jura started tinkering – as Swabians are wont to do. With their passion, expertise and hard work, they built the first chair to revolutionise the working world and take the strain off the human body.

What began as a joint venture between father and son 60 years ago is now a family of around 850 committed employees worldwide. Based in Tieringen, a district of the German town of

Meßstetten, we are now one of the leading manufacturers in Europe. From our home, we supply the entire world with sophisticated and innovative products "Made in Germany".

Our knowledge and expertise, as well as our high quality standards and innovative spirit, drive us to continue achieving excellent results every single day. We always have a clear goal in mind: Offering our customers the best possible solution for their requirements.

For more information about our company, visit interstuhl.com

Splaces

SPLACES: WHAT'S IN A NAME?

SPLACES IS OUR ECOSYSTEM FOR NEW WORK

With Splaces, we confront the challenges of a new time, a new form of cooperation and a new world of work with a holistic concept.

To do this, we combine knowledge from the fields of architecture, science and user requirements with our many years of experience in the office environment. The objective is to identify and understand the challenges and requirements of the modern world of work and offer solutions that enable our customers – and all those involved in creating New Work Spaces – to write their own personal New Work stories.

Do you want to know more?
Visit interstuhl.com/splaces for
all the information about our
Splaces ecosystem.

HOW DOES THE IDEA OF SPLACES BECOME A TANGIBLE CONCEPT?

Together, we will develop a shared understanding for your starting point, your requirements, your wishes and goals. That means: We will ask questions, challenge existing beliefs, listen, observe and provide advice. We will jointly develop a clear definition of your personal New Work vision.

We achieve this by examining two components – architecture and ideas. The first consists of analysing stock and requirements. The second component is examined in a series of workshops and by surveying those who will later work in the new environment. In doing so, we only employ those components that are actually needed based on your current development status.

The results are evaluated and then prepared to serve as a basis for the subsequent planning phase.

Do you want to know more?
Visit interstuhl.com/splaces for
all the information about Splaces,
our new area of expertise.

On your chairs, get set, go! Welcome to the INTERSTUHL SPRINT express range. With Interstuhl SPRINT, you benefit from tried-and-tested models with extra-fast availability, optimum price-performance ratio, and 10-year guarantee. The maximum order quantity is limited to 40 chairs per customer per week.

With Interstuhl SPRINT, you benefit from preconfigured, tried-and-tested best-selling products with extra-fast availability, and a 10-year guarantee.

Castors	Hard double castors	-	804	●	●	●
	Soft double castors	-	803	○	○	○

Remarks:

1 Armrest cover same as seat and backrest cover.

2 Brushing is a method that emphasise the character and material properties of aluminium in a particularly genuine way. This also includes minor irregularities in the surface that make every chair a unique item. A subsequently applied protecting lacquer prevents premature signs of ageing; on the other hand, aluminium is a material that tends to become more valuable the more its is used. Signs of wear appear during normal use and do not justify complaints.

The colour and veneer samples shown provide a true representation of the series colours and structures. Wood is a natural product. Veneers with different structures and colours are always used for the production of tables. As a result

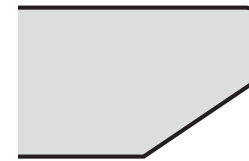

complaints about colour and structure deviations caused by the material cannot be accepted.

The variations and colours of the models you will find in the pricing table

of each product family. The Table also shows the relevant ordering reference number.
